Forever loved ♡ Autism Awareness ∞ Jonathan Davis [Link](#)

Description:

Maximalism is a design, fashion, and lifestyle philosophy that celebrates abundance, complexity, and personal expression, serving as a reaction social norms and values.

Autistic people often use maximalism as a form of expression to curate a "dopamine-friendly" environment, providing sensory comfort, visual stimulation, and a safe space for unmasking. By filling their personal spaces with special interests, collections, vibrant colors, and unique textures, autistic individuals can create a controlled environment that reduces anxiety and sparks joy.

THE TWISTED TWEAKS

Tweaks are the digital, artistic representation of many internal struggles humans face. The anxieties and complex emotions that people feel every day should no longer be looked down on, rather accepted and loved because that makes you who you are.
